COLOR SELECTION BROCHURE

PREMIUM LIFT COLORS

Kalea already offers over 250 standard colors. But we wanted something new, something unique.

Over the past three years we have travelled the world looking for the best colors for our lifts. Our expert designers have finally found it, and although it requires a complex application through high-temperature powder coating, we know the result is worth it.

Specially designed in the USA for Kalea, you won't find these colors anywhere else. The colors only for you.

A collection of painting supplies is arranged on a light-colored surface. In the foreground, two paintbrushes with natural bristles and wooden handles are positioned diagonally. One brush is larger and wider, while the other is smaller and more pointed. Behind them, two open paint cans are visible. The can on the left is a muted green color with a white band around its middle. The can on the right is a light blue color, also with a white band. Both cans have their silver lids removed, revealing the paint inside. In the background, a roll of yellow tape with a red pattern is partially unrolled. In the foreground, a color palette with various shades of blue, green, and yellow is spread out. The overall scene is well-lit and organized, suggesting a professional or artistic workspace.
